EagleEye Analytics Appoints Dan Carmichael to its Board of Directors

COLUMBIA, S.C. - EagleEye Analytics, the leading provider of world class predictive analytics solutions to the property and casualty insurance industry, announced today that it has appointed Dan R. Carmichael, CPCU to its Board of Directors.

Larry Wilson, EagleEye Analytics' Chairman, stated, "We are extremely pleased to have an insurance executive of Dan's experience and stature join our board. His insights will be invaluable in shaping the strategic direction of the company while his insurance and operational expertise will provide complimentary leadership skills to support our rapid growth."

Terry Wade, EagleEye Analytics' President and CEO added, "I am excited by the prospect of working with someone of Dan's experience and accomplishments to help insurance carriers improve their operating results through the creative and effective deployment of our solutions and services."

Mr. Carmichael is Chairman of the Board of Platinum Underwriters Holdings, a Bermuda holding company for property & casualty reinsurance companies. He is also a director of Alleghany Corporation and Dovetail Insurance. Additionally, Mr. Carmichael serves on: the Advisory Council of Proudfoot Consulting, a global operational consultancy firm and the Insurance Advisory Board of FirstMark Capital, a private equity firm. From December 2000 to 2007 Mr. Carmichael served as President and CEO of Ohio Casualty Corporation where he was responsible for restoring the company's financial strength and performance which ultimately led to its sale to Liberty Mutual in 2007 for \$2.9 billion. Prior to joining Ohio Casualty, from 1995 until the end of 2000, Mr. Carmichael was President and CEO of IVANS, Inc., a privately held industry-owned organization that provides electronic communications services to insurance and health care organizations. Prior to his tenure at IVANS, he served over eight years as Chairman, President and CEO of Anthem Casualty Insurance Group (a.k.a. The Shelby Insurance Company).

About EagleEye Analytics
